

## TRIDENT PRO X

### 3. DUCT CLASP

Duct clasp that helps secure the ducting to the Airtight Damper Box and Steel Housing without screws or tape.

### 1. ADJUSTABLE HANGING STRAP

Keyhole straps that allow you to adjust, up or down, without removing the screw so the fan can be hung in nearly every attic space.

### 2. HIGH-PERFORMANCE ACOUSTICAL DUCTING

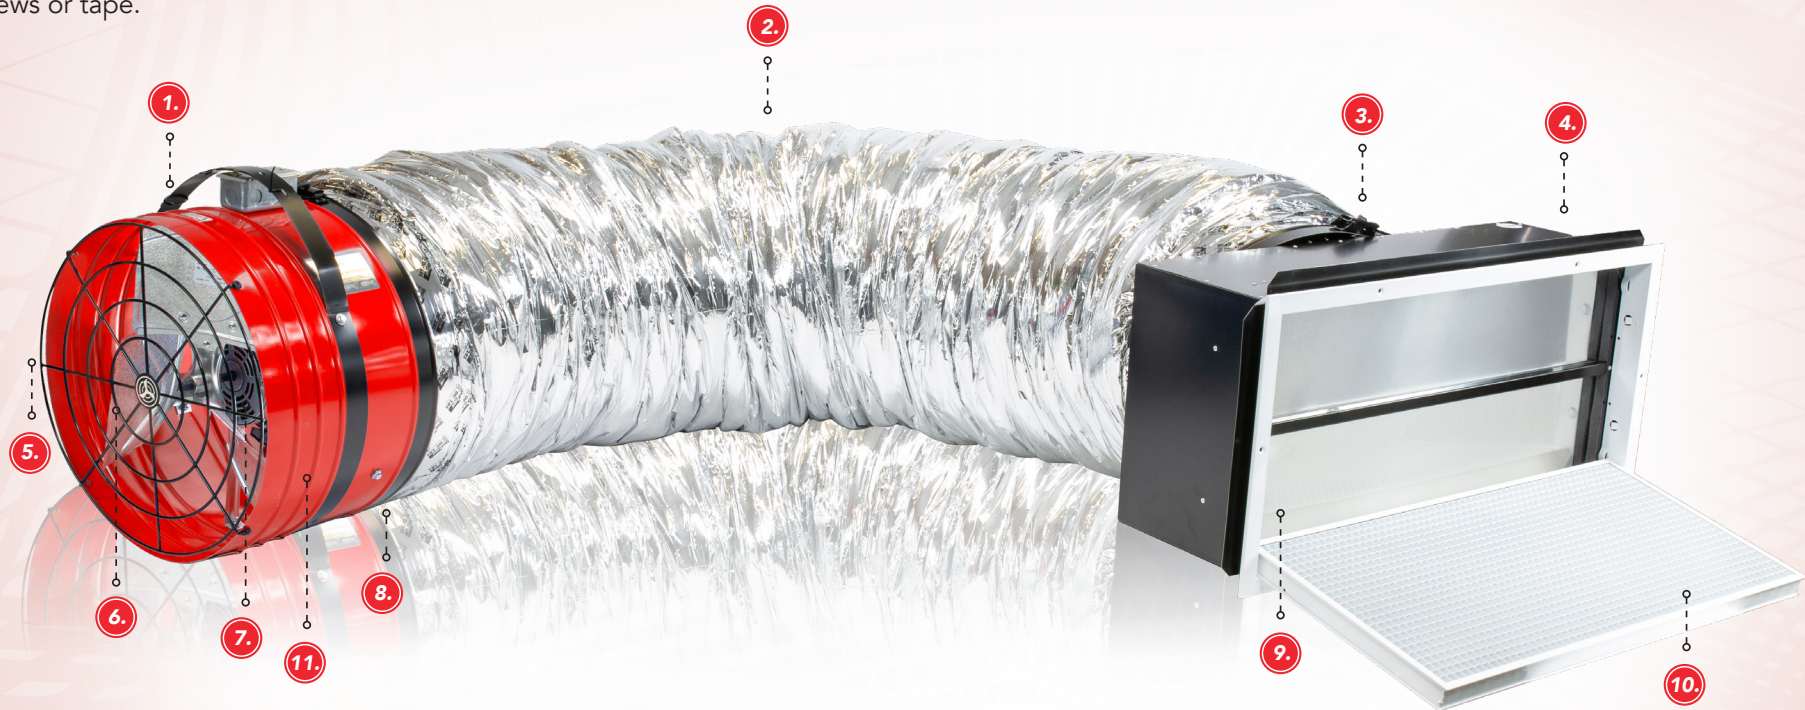

Noise dampening technology with insulated ducting that is used to separate the Steel Housing from the living space.

### 4. AIRTIGHT DAMPER BOX

Damper Box with R5 insulated doors that prevent any heat transfer from the attic to the living area.

### 5. HAND GUARD

Guard that protects from potential injury or fan obstruction.

### 6. COMPUTER BALANCED FAN BLADES

High-performance fan blades that cut through the air in the most efficient and effective way possible.

### 7. ENERGY-EFFICIENT PSC MOTOR

Permanent Split Capacitor Motor that uses sealed ball bearings to increase durability and longevity.

### 8. DUCT COLLAR

The adjustable collar that helps seal and secure the Heavy Duty Steel Housing and the Airtight Damper Box with no air leakage.

### 9. R5 DAMPER DOORS

Barometric pressurized damper doors that utilize gravity to secure the Airtight Damper Box.

### 10. HIGH AIRFLOW GRILLE

The removable grille that can snap in or out for easy cleaning.

### 11. HEAVY DUTY STEEL HOUSING

Powder-coated steel housing that protects the fan from wear and tear.
